

SKOOL4KIDZ CAMPUS

@ Fernvale

PRESCHOOL
A MEMBER OF KINDERLAND EDUCARE SERVICES

Where purposeful outdoor learning begins.

SKOOL4KIDZ CAMPUS

@ Fernvale

Why Skool4Kidz?

Skool4Kidz is a preschool under the Anchor Operator (AOP) scheme.

It is owned by a consortium led by Kinderland that has a track record of more than 40 years of experience in nurturing preschoolers and a network of more than 120 preschool centres in the region.

Skool4Kidz's mission is to partner families and communities to bring success to every child through quality early care and education.

Spacious and conducive classrooms.

Physical play area, SPORTS.

Our curriculum is built around:

1. Regular & systematic integration of learning experiences

According to research findings, children best benefit from a thematic curriculum that includes first-hand experiences which make learning fun and natural.

2. Learning technology

To prepare our children for the digital future, the use of child-friendly tech-bots, gadgets and games are incorporated into our curriculum. Through play and interaction with technology, our children develop creativity, critical thinking skills and social interaction skills.

In our integrated curriculum, we cover six learning domains which align with the *National Guidelines*:

- Language and Literacy
- Numeracy
- Discovery of the World
- Aesthetic and Creative Expression
- Motor Skills Development
- Social and Emotional Development

Designed With Your Child In Mind

Every day is a wonderland at Skool4Kidz Campus @ Fernvale. Every activity within the campus strives to stimulate, promote creativity and imagination in the children. The variety of physical, creative play and learning areas allow them to engage and discover, to grow intellectually, socially, emotionally, and physically.

Well-dressed by nature's landscapes, the campus' facade and see-through roof symbolises a bird's nest fern that represents self-sufficiency and independence. In the comfort and safety of the campus, children enjoy learning opportunities outside the classroom. A wide range of open spaces and green areas allow them to learn, develop and keep in touch with nature.

Outdoor Learning

Biophilic Garden

The Biophilic Garden is specially designed to allow our children to spend time reconnecting with nature for their overall well-being, self-confidence and creative expression. It advocates exploration, discovery and play in the open environment. Skool4Kidz is the first preschool in Singapore to feature a Biophilic Garden with a functional concept.

Children can see, touch, smell and identify various aspects of nature. The Garden encourages vivid imagination and allows children to create their own magical worlds. They can express their curiosity and creativity in make-believe games at the water and sand play area.

Mini Kidz City

Situated on the top floor of the building is a mini Road Safety Traffic Park, where children can experience 'real-life' traffic environment. This is the first traffic park of its kind in a preschool campus.

This integrated-themed play park allows children to role-play as riders and pedestrians. They also learn essential road safety rules and courtesy. It emphasises on the well-being of self and others. Our children will have fun tackling challenging road conditions such as zebra crossings and traffic signal lights. The role-play simulation encourages children to take on responsibilities while developing their gross motor and coordination skills.

Art Nest and Culture

The Art Nest, which is the school's atelier, is planned to help children express their artistic potential through styles and mediums.

Stocked with various creative materials and tools, children have the freedom to stretch their imagination and confidently put their thoughts and emotions on 'cavasses'. This promotes creativity and encourages a sense of fulfilment, critical thinking and problem-solving skills.

Located next to Art Nest, is the Culture Hub. Displays and materials are refreshed every term based on curriculum themes. Apart from encouraging social interaction, the space promotes awareness and inclusion of cultural diversity. It creates a sense of belonging in the community and instils an appreciation of diverse cultures in children.

Fun Deck

Our Fun Deck promotes outdoor learning and social interaction.

Equipped with everyday objects, children play with sounds and stimulate their creativity and self-expression through exploration and experimentation.

Dining & Culinary Area

At the Dining & Culinary Area, children are taught good table manners and to self-feed. They learn to recognise different food types, experience and participate in various food preparation methods.

Optimal freshness, nutrition and hygiene in our children's meals are ensured. All meals are planned by our certified nutritionist and approved by Health Promotion Board (HPB).

The dining area also boasts of a MasterChef section designed to pique our children's interest in food. It also promotes the importance of having nutritious balanced meals.

Within the same area, children are allowed to freely explore, and create form and structure using blocks of various shapes and sizes. They learn to be bold and creative, using imagination and expression. Teamwork is also developed as they take turns, share and communicate during activities. Other benefits include acquiring fine and gross motor skills, and the understanding of engineering concepts and principles.

Passionate educators who make a difference

All our teachers undergo constant training and development. This ensures they are academically and professionally qualified. They are also trained to create a nurturing, safe and comfortable learning environment for our children to excel in.

Quality support system

Skool4Kidz offers an effective, all-rounded curriculum that ensures your child's development.

Skool4Kidz's curriculum's approach is developed by a team of pedagogical specialists. Thematic-based and supported by meaningful use of technology that develops creativity, our curriculum encourages critical thinking and social interaction skills that prepare preschoolers for the 21st century.

Through play and interaction with technology, child-friendly tech-bots, gadgets and games, our programme is structured for young children to develop computation thinking, active problem solving, social interaction and the confidence to be creative.

Subsidised school fees

Enrolled children in all ECDA-licensed childcare centres, who are Singapore Citizens, receive Basic Subsidy for Childcare and Infant Care. They may also receive Additional Subsidy if they meet the eligibility criteria.

More details on available subsidies at:
<https://www.ecda.gov.sg/Parents/Pages/AOP.aspx>.

Our Services

Skool4Kidz provides Infant Care services for children from 2 to 18 months old, and Childcare programmes for those 18 months to 6 years old.

Our Operating Hours

Monday to Friday : 7.00 am to 7.00 pm
Saturday : 7.00 am to 2.00 pm

Age of Child	Student-Teacher Ratio
Infant (2 months – 18 months)	1:5
Pre-Nursery (Above 18 – 24 months)	1:8
Nursery 1 (Turning 3 years old)	1:12
