

MEDIA RELEASE

## **SKOOL4KIDZ PRESCHOOLS CELEBRATE CONTINUOUS LEARNING THROUGHOUT 2021.**

**Singapore, 5<sup>th</sup> July 2021** - Twenty-one Skool4Kidz Preschools, including three mega Campuses, continue to invest in continuous learning at the year-long Professional Development (PD) Festival 2021. Some 650 educators and staff participate in the training festival focusing on deepening competencies in the Early Childhood (EC) arena.

Held yearly, the Anchor Operator and a Member of Kinderland International Education Group dedicatedly ensures all staff skill together for career progression. This year, the focus is on equipping educators to holistically develop preschoolers using developmentally appropriate and intentionally planned curriculum.

Training topics promote **Pre-Literacy Skills in Infants and Toddlers** while focusing on **The Impact of Nutrition on Infant and Toddler Development**. Additionally, our educators learn techniques to implement Outdoor Learning through **Harnessing the Power of Stories** to bring the outdoors to life.

To reinforce Skool4Kidz's Technology-Aided programmes for preschoolers, the teachers attend courses to use **Information Technology to Teach In A Multi-Lingual Environment**.

Qualified nutritionists with extensive experience working with preschools focus our kitchen staff on the importance of **Nutrition and Food Safety**.

Aptly quips Dr Jane Ching-Kwan, our Curriculum Founder, "Learning never stops. Good teaching doesn't just happen. We work hard for it!"

She adds, "Ongoing professional development creates a culture of learning that is really about engaging our children in the most effective ways possible. As educators, we need to continuously amass knowledge and skills and apply that learning to help our children achieve their developmental and learning goals. By learning forward, continuous Professional Development becomes our commitment to quality education. Let us learn smart to better support our children's learning!"
